Hoarding – Zoom Support Group (virtual)

Group Overview and Application Form

Overview

Hoarding affects health, wellbeing and lifestyle, and brings with it all the practical complications and dangers of living in a cluttered space. Individuals may be feeling embarrassed, anxious and sad about how they are living. This support group is here to help those who are affected by hoarding difficulties. It is possible to reclaim your space, your life and your well-being.

Session aims

The peer support sessions are in place to help individuals manage the impact hoarding difficulties has on their daily activities, mental health and wellbeing.
During the sessions we'll look to gain a better understanding of the types of hoarding, decluttering techniques and tips and how to feel empowered to sustain efforts to maintain the reclaimed space

Objectives are to:

- bring together people with shared experiences of hoarding difficulties, in order to support each other
- provide a space where individuals feel accepted and understood
- treat everyone's experiences as being equally important
- involve both giving and receiving support.

Outcomes

Improved resilience and skills for self-management
Improved mental health and emotional well-being
For individuals to feel there is hope, control and opportunity within their life
